Keyword: Applications, Indonesian Presidential Palace

Abstract:

At this writing discusses the application of the Republic of Indonesia Presidential Palace introduction using Macromedia Dreamweaver MX. Application is made with the purpose of providing information to the public to be aware of the history, functions and building whatever is within the Presidential Palace. Indonesian has registered five presidential palace: the palace in Jakarta, Bogor Palace in Bogor, Cipanas in Cipanas Palace, the Palace and the Palace Tampaksiring in Bali Gedung Agung Yogyakarta. From history, the Merdeka Palace, Istana Negara, Gedung Agung, Cipanas Palace, and the Bogor Palace was built during the Dutch government. Tampaksiring palace built during President Sukarno. Presidential Palaces is part of a historic building in Indonesia. Perhaps many people will not know the history of the Presidential Palace. With this application, it is expected the public to know some of the nation's history.
